HOW TO PLAY

For each puzzle, you're given a theme, a letter grid and a list of words for that theme.

When you find a word in the grid, draw a line through it with a crayon.

Words can go in any direction:

Power word: RAINBOW

ALL PUZZLES have a power word that isn't in the word list, but top players will find it in the grid.

You can find the answers and power words for all puzzles in the answer section starting on page 86.

HOW TO PLAY

There are 7 main ways to play the puzzles in this book. You can mix and match games together and even include the power words to make your own ways to play!

All games are for 2-4 players playing against each other or in teams. It's totally up to you!

See how to play

FASTEST FINISH

Whoever finds all the words in their list first wins.

BEAT THE CLOCK

Whoever finds the most words in the allotted time wins.

WORDS IN ORDER

Whoever finds all their words in order first wins. You decide the order.

POWER WORD

Whoever finds the power word first wins.

TURBO TURNS

Take turns to find a word in 10 seconds or miss a turn. First to find all words wins.

CRAYON CHAMP

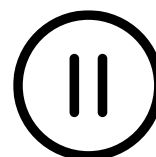

Each player or team uses a different color crayon. You get 1 point for finding a word on the list and 3 points for the power word. Most points wins.

CLUELESS

No clues, just a theme and the number of words to find. Whoever finds all the words for that theme wins. Can be played at least 3 different ways.

PAUSE THE GAME

You can pause and come back to a game at any time. Just tear the shape at the top right and fold it upwards so that it sticks out the top of the book.
